

MULTISTOREY CAR PARKING BOT

UAE

The Multistorey Car Parking BOT project in Souq Al Kabeer, Dubai, showcases our expertise in delivering innovative infrastructure on a Public-Private Partnership (PPP) model with RTADubai and Parkin. Spanning a total built-up area of 20,000m², this state-of-the-art facility provides parking for 400 cars and features a 3,100m² leasable commercial space. Recognized for its excellence, the project won the 5th MENA PPP Award for Best Small-Scale PPP Project, highlighting its success in addressing urban mobility and commercial needs in a bustling area of Dubai.
