

# JUBAIL MARINA MIXED- USE DEVELOPMENT

## Saudi Arabia

Situated in the city of Jubail, Saudi Arabia, this Build-Operate-Transfer (BOT) Mixed-Use Development Project is a significant undertaking, covering an expansive area of 275,000 m<sup>2</sup>. The project features a diverse mix of commercial spaces for businesses, residential areas for living, and welcoming hospitality buildings for visitors. At its core is a modern shopping mall offering a wide range of retail options, complemented by a stunning 300-berth marina for maritime enthusiasts. Every element of this development is meant to create a self-sustaining center where living, business, and leisure intertwine.
